Due to the extreme amount of odor that the Air Sensation produces, it is sufficient in most cases to briefly press the spray head only once, making the product very economical in use.

APPLICATIONS:

For eliminating unpleasant odors in, for example:

- Cars, trucks, bus
- Public areas (hotels/changing rooms/fitness)
- Rental objects
- Toilet freshener

INSTRUCTIONS:

Before use, read and follow the instructions on the label. Depending on the size of the room, it is recommended to briefly press the spray head once. Let the product circulate in the room for at least 5 minutes. (If the result is still not optimal because the space is, for example, too large, it is recommended to spray again briefly).
