

RADIATOR STOP

SEALS FOR ENGINES ED

- [Stops and prevents leaks](#)
- [Protects the cooling system](#)
- [Added corrosion inhibitors](#)
- [Helps prevent blockage](#)
- [Suitable for all types of coolant and antifreeze](#)
- [1 dose treats systems with up to 30L capacity \(up to 5 cars\)](#)

PRODUCT DESCRIPTION:

RADIATOR STOP for radiators quickly finds radiator leaks and permanently seals them. It is formulated to inhibit the formation of rust and corrosion and to prevent further leaks. Can be used with antifreeze and is harmless for rubber hoses, gaskets and liquid gaskets.

INSTRUCTIONS:

Run the engine to heat the coolant. Shake the bottle well and pour the contents into the radiator. Run the engine for a few minutes to circulate the treatment and seal leaks. Add coolant if necessary. Covers a cooling system up to 30 liters.

SPECIFICATIONS :

Appearance	:	Opaque liquid
Solubility	:	Soluble in water
Boiling point	:	> 100
Relative density	:	1.05-1.07
pH, Conc. Solution	:	9 to 11 (% w / w: 10%)
Viscosity	:	No data available
