

PRO DEGREASER SPRAY

SOLVENTS AND DEGREASERS

- Cleans and degreases in seconds
- Safe on all metals and certain plastics
- Dries extra quickly and leaves no residue
- Can be painted over after 1 minute

PRODUCT DESCRIPTION:

High-quality universal cleaner for removing contaminants from parts treated and untreated metal and various types of plastic. Pro degreaser spray is very easy to use, responds quickly and is economical in usage. Pro degreaser spray provides efficient cleaning in hard to reach places.

APPLICATIONS:

- Bearings
- Machine parts
- Gears
- Garden tools
- Locks
- Garden furniture
- Cylinders
- Wooden parts
- Guide rails (auto)
- Car windows
- Hinges and locks
- Floors and walls
- Axes

INSTRUCTIONS :

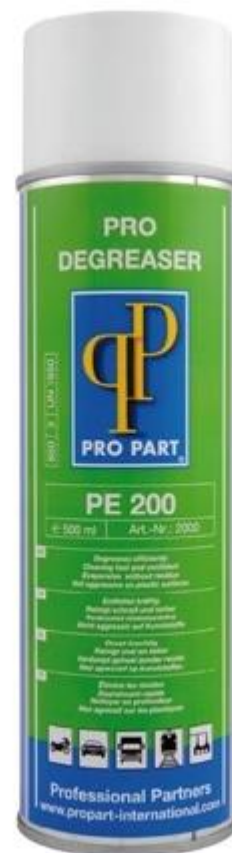

Before use, read and follow the directions on the packaging. Bring the aerosol to room temperature. Ideal processing temperature 5 to 30°C.

Shake aerosol before use.

For treatment, cover power conductive parts and turn off electrical installations.

Spray the parts that need to be treated and leave for a few minutes. Treat perseverant stains with a brush.

Repeat the treatment until the contamination is gone.
